### EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with applicant's representative, Bruce Stuckman, on 11/06/06.

2. The application has been amended as follows:

- in claim 1, line 30, after "second antenna", add ----- a first transmit/receive (T/R) switch operably coupled to the first and second diplexers and to the first radio section, wherein, when the wireless communication device is in the first mode of operation, the first T/R switch provides the first inbound RF signals from a first selected antenna of the first and second antennas to the first radio section and provides the first outbound RF signals from the first radio section to the first selected antenna; and

a second T/R switch operably coupled to the first and second diplexers and to the second radio section, wherein, when the wireless communication device is in the second mode of operation, the second T/R switch provides the second inbound RF signals from a second selected antenna of the first and second antennas to the second radio section and provides the second outbound RF signals from the second radio section to the second selected antenna-----.

Art Unit: 2618

- in claim 21, line 32, after "second antenna", add ----- a first transmit/receive (T/R) switch operably coupled to the first and second diplexers and to the first radio section, wherein, when the wireless communication device is in the first mode of operation, the first T/R switch provides the first inbound RF signals from a first selected antenna of the first and second antennas to the first radio section and provides the first outbound RF signals from the first radio section to the first selected antenna; and

a second T/R switch operably coupled to the first and second diplexers and to the second radio section, wherein, when the wireless communication device is in the second mode of operation, the second T/R switch provides the second inbound RF signals from a second selected antenna of the first and second antennas to the second radio section and provides the second outbound RF signals from the second radio section to the second selected antenna-----.

- cancel claims 2 and 22.

### ***REASON FOR ALLOWANCE***

3. The following is an examiner's statement of reasons for allowance:

Regarding independent claims 1 and 21, they have amended by amendment filed 09/06/06 and by the above examiner's amendment to include the allowable subject matter of claims 2 and 22 respectively from the previous office action filed 7/13/06.

Regarding claim 15, it has been amended to include the allowable subject matter of claim 20 from the previous office action filed 7/13/06.

Art Unit: 2618

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
